

**100<sup>th</sup> ...**

**Lucienne Coolen** has been the local organizer **for all 100 events**

**More on [www.eurandom.tue.nl/100](http://www.eurandom.tue.nl/100)**

Dear friends and colleagues,

**4386** participants from all over the world, **1707** lectures over **318** days and a wide range of topics from ergodic theory to asset backed securities. This is the track record of 100 EURANDOM workshops.

We will **celebrate this special anniversary with cake and drinks on December 14**, at the end of the first day of the 100th workshop.  
**Time: 16.15 - 17.30.**

You are most welcome to attend this anniversary party!  
Venue: Reception area of EURANDOM, first floor Laplace building on TU/e campus, Eindhoven.

In our view, the workshops are an important service to the stochastics community. The workshops have introduced several hot topics in stochastics to The Netherlands and have led to many new fruitful scientific contacts and collaborations.

We are grateful to NWO, KNAW, the Ministry of OCW, Eindhoven University of Technology, and many other sponsors including Stieltjes, EC and Philips for their valuable support. We also thank the many scientific organizers for their substantial efforts.

We intend to continue the tradition of organizing workshops for 30-50 active researchers, mixed with a few large conferences (like INFORMS APS 2007 and NETCOOP 2009). In 2010 the YEP, YEQT, YES, YEFM workshops will be organized by and for young researchers, as well as another 6 regular workshops. You can find more information on all activities at [www.eurandom.tue.nl/events](http://www.eurandom.tue.nl/events)

Best regards,

Onno Boxma and Connie Cantrijn, directors
